

Lorax Craft

Here's a fun and simple craft from the site Lalymom (<http://lalymom.com>). Let's make a LORAX finger puppet, it couldn't be easier.

Take an orange foam sheet and cut out a shape that looks like the Lorax. At the bottom cut out two little finger holes for his legs.

Then add two googlie eyes inbetween the eyes add a red pom pom.

Finally, add the yellow pipe cleaners as in illustration #2. These go through the foam figure.
